In an effort to meet the training needs of the business & industry community, the SCCTC is offering customized training that will be designed to meet professional development needs. Whether your staff requires new skills or an update to existing skills, we can accommodate your training needs. Not only can we provide industry specific skill training, but we can implement professional development training as well.

- **Welding**
- **Computer Training**
- **CPR/First Aid**
- **OSHA**
- **And More...**

If you would like a training plan developed specifically for you, call the
